PEDIATRIC NEUROLOGY
Subject Index Volume 14

Acidosis, lactic, with MERRF syndrome, 57
ACTH and ADH discharge, vomiting episode with, improves startle epilepsy, 322
ADH discharge and ACTH, vomiting episode with, improves startle epilepsy, 322
Anemia, sickle cell, with moyamoya disease, and EDAS, 226
Angelman syndrome, and autism, 131
Angiomatosis, diffuse meningocerebral, or angiodysgenetic necrotizing encephalopathy, 155
Artery dissection, vertebral, issues in diagnosis and management, 255
Autism in Angelman syndrome, 131
Autonomic and visceral dysfunction, and mitochondrial encephalomyopathies, 251

Benign epilepsy of childhood with rolandic spikes (BECRS), pseudo, 31
β-galactosidase gene, a common mutation site originates in Puerto Rico, 53
Birth weight, low, visual outcome at age 2 years, 281
Blood flow
  Carotid arterial, normal developmental change measured by Doppler flowmetry, 313
  Cerebral, abnormalities, and infantile spasms, 220
Book Reviews
  Clinical Neurology for Psychiatrists: David M. Kaufman/Author, 169
  Developmental Neuropsychiatry: J. C. Harris/Author, 348
  Diagnosis and Management of Disorders of the Spinal Cord: Robert R. Young and Robert M. Woolsey/Editors, 170
  Epilepsy: A Handbook: Neil Buchanan/Author, 347
  Metabolic Myopathies: David Hilton-Jones, Marian Squier, Doris Taylor, Paul Matthews/Authors, 169
  Muscle Disorders in Childhood: V. Dubowitz/Author, 169
  Neurology for Non-Neurologists: Wigbert C. Wiederhold/Author, 348
  Principles and Practice of Sleep Medicine in the Child: Richard Ferber and Meir Kryger/Authors, 347
Breath-holding spells, 91
Bruits, intracranial, incidence in neonates, 129

Carbamazepine and myoclonus in SSPE, 346
Cataract, unilateral, and cerebellar dysplasia in Marinesco-Sjögren syndrome, 158
Cauda equina histiocytosis X, 231
Cerebral white matter, hypertrophy of, and hemimegalencephaly, 335
Chorea, benign hereditary, improved on stimulant therapy, 326

Dandy-Walker syndrome presenting as opisthotonus, 165
Development of neurology at The Montreal Children's Hospital, 185
Diabetes mellitus, insulin-dependent, autonomic dysfunction in the newly diagnosed, 49
Dichloroacetate, treatment failure in Leigh disease, 68
DNA depletion, mitochondrial, 203
Doppler flowmetry, as measure of normal developmental changes in carotid arterial blood flow, 313
Duchenne muscular dystrophy, and skeletal, cardiac, and smooth muscle failures, 7
Dysplasia
  Brain, associated with Larsen-like syndrome, 75
  Cerebellar, and unilateral cataract in Marinesco-Sjögren syndrome, 158
  Intracranial fibromuscular, 262
Dystonia musculorum deformans, idiopathic, simultaneous bilateral pallidoansotomy for, 145

E1α mutation and E1β subunit deficiency relationship, and pyruvate dehydrogenase deficiency, 328
E1β subunit deficiency and E1α mutation relationship, and pyruvate dehydrogenase deficiency, 328
EEG-sleep measures, neonatal, prediction of lower developmental performances of healthy neonates, 137
[^{18}F]fluorodeoxyglucose positron emission tomography, usefulness in pediatric epilepsy surgery, 98
Encephaloduroarteriosynangiosis (EDAS), with sickle cell anemia and moyamoya disease, 226
Encephalomyopathies, mitochondrial, presenting with features of autonomic and visceral dysfunction, 251
Encephalopathy
  Angiodysgenetic necrotizing, or diffuse meningocerebral angiomatosis, 155
  Hypoxic-ischemic, in areas of primary myelination, a neuroimaging and PET study, 108
Ependymoma, totally resected intracranial, deferring adjuvant therapy for, 216
Epilepsy
  Startle, improvement following vomiting attack with ACTH and ADH discharge, 322
  Surgery, and usefulness of [^{18}F]fluorodeoxyglucose positron emission tomography, 98
  Syndrome, primary partial, intracranial focal lesions suggestive of, "Pseudo-BECRS", 31
Evoked potentials
  As predictors of outcome in neonatal intensive care unit survivors, 189
  Brainstem, and association with gentamicin in neonates, 277

Facial nerve paralysis of dental origin, 342
Fat-Sat MRI, in childhood optic neuritis, 64

Γ-globulin treatment, intravenous, and subacute sclerosing panencephalitis, 72
Gamma globulin, long-term response in Rasmussen syndrome, 149
Gentamicin, association with recording of brainstem evoked potentials in neonates, 277
Guillain-Barré syndrome, severe, treated with human immune globulin, 308

Hemimegalencephaly, and hypertrophy of the cerebral white matter, 335
Hemorrhage, subarachnoid, with Down syndrome and moyamoya disease, 259
Histiocytosis X, cauda equina, 231
Hypofibrinogenemia, pseudo valproate-induced, 345

Immune globulin, human, as treatment for severe Guillain-Barré syndrome, 308

Larsen-like syndrome, and brain dysplasia, 74
Leigh disease with deficiency of lipoamide dehydrogenase, treatment failure with dichloroacetate, 69
Leukodystrophy, megalencephalic, in Asian Indian ethnic group, 291
Leukomalacia, neonatal, and immunohistochemical expression of tumor necrosis factor α, 13
Leukotriene B_4 and C_4 in cerebrospinal fluid from children with meningitis and febrile seizures, 121
Levodopa, ontogenetic development of the locomotor response to in the rat, 41
Lipoamide dehydrogenase deficiency in Leigh syndrome, treatment failure with dichloroacetate, 69
Locomotor response to levodopa, ontogenetic development, 41
Long-chain 3-hydroxyacl-CoA dehydrogenase deficiency, clinical spectrum, 236
Low birth-weight population, visual outcome at 2 years, 281
Lowe oculocerebrorenal syndrome, MR findings and neurologic manifestations, 162

Marinesco-Sjögren syndrome, and cerebellar dysplasia and unilateral cataract, 158
Meningitis
  And febrile seizures, and leukotriene B_4 and C_4 in cerebrospinal fluid, 121
  Bacterial, epidemiology of, 244
Meperidine, acute neurotoxity, 339
MERRF syndrome and lactic acidosis, 57
Migraine, acephalic, 211
Montreal Children's Hospital, Neurology, 185
Moyamoya disease
  And Down syndrome, with subarachnoid hemorrhage, 259
  With sickle cell anemia, and EDAS, 226
MRI, fat-saturation pulse (Fat-Sat), in childhood optic neuritis, 64
Muscular dystrophy, Duchenne, and skeletal, cardiac, and smooth muscle failure, 7
Myelination, primary, and hypoxic-ischemic encephalopathy, a neuroimaging and PET study, 108
Myoclonic epilepsy with ragged-red fiber (MERRF) syndrome with lactic acidosis, 57
Myoclonus and carbamazepine in SSPE, 346

Neurocognitive behavior, effects of discontinuation of phenobarbital, 36
Neuronal migration disorders presenting with mild clinical symptoms, 153

Opisthotonus, Dandy-Walker syndrome presenting as, 165
Optic neuritis, and availability of frequency-selective fat-saturation (Fat-Sat) MRI, 64

Pallidoansotomy, simultaneous bilateral, for idiopathic dystonia musculorum deformans, 145
Panencephalitis, subacute sclerosing, and intravenous γ-globulin treatment, 72
Parachute reactions in normal and late walkers, 46
Paralysis, facial nerve, of dental origin, 342
Phenobarbital, discontinuation of, and effects on neurocognitive behavior, 36
Positive emission tomography, [^{18}F]fluorodeoxyglucose, usefulness in pediatric epilepsy surgery, 98
Prediction of lower developmental performances of healthy neonates by neonatal EEG-sleep measures, 137
Ptosis associated with sinusitis, 62
Pyruvate dehydrogenase deficiency, relation of the E1α mutation to the E1β subunit deficiency, 328

Rasmussen syndrome and long-term response to gamma globulin, 149

Sanfilippo syndrome type C, 317
Sarcomas, myeloradicular features as initial presentation, 297
Seizures, febrile, and meningitis, and leukotriene B_4 and C_4 in cerebrospinal fluid, 121
Sinusitis associated with ptosis, 62
Spasms, infantile, cerebral blood flow abnormalities correlate with EEG, neuroimaging, and pathologic findings, 220
Staring spells, differential diagnosis of, a video-EEG study, 199
Stimulant therapy to improve benign hereditary chorea, 326
Subacute sclerosing panencephalitis (SSPE), and carbamazepine and myoclonus, 346

Thrombocytopenia and valproic acid, 303
Tumor necrosis factor (alpha), immunohistochemical expression in neonatal leukomalacia, 13

Valproic acid and thrombocytopenia, 303
Ventriculomegaly, nonprogressive congenital unilateral, 66
Visceral and autonomic dysfunction, and mitochondrial encephalomyopathies, 251
Visual outcome at age 2 years in a low birth weight population, 281

Watters, Gordon V., biography, 182
West syndrome, cerebral blood flow abnormalities correlate with EEG, neuroimaging, and pathologic findings, 220
